Train the Trainer Workshop

Your employees are not professional trainers, but often need to present technical knowledge, procedures and skills to your employees. Peer training by co-workers has been proven to be more effective than training given by management or outsiders. Workers are more likely to believe and pay attention to a peer trainer who shares the same beliefs and concerns, while facing the same problems on a daily basis.

This workshop will meet your needs, regardless of the experience and skill level of your trainers, by giving you universal training skills and instructional methods.

Your Trainers Will Learn

The Seven Adult Learning Concepts; How to Design Effective Training in 10 Steps;
How to Deliver Effective Training; Evaluating and Improving Training Programs;
Required Conditions for Adult Learning; Common Training Mistakes;
Adult Learning Styles and Instructional Strategies That Match;
How to Handle Difficult Personalities and Disruptive Students, and
How to Make Sure it Sticks!

Price

Your location: \$1,350.00 per 6-Hour session, plus \$25.00 per trainee for textbooks and handouts
